Education

Bachelor of Technology in Computer Science and Engineering
Indian Institute of Information Technology (IIIT), Surat | Currently in 5th Semester

2024-Present
CGPA : 7.15

Experience

Software Engineering Intern — Yo Greet LLP (Summer Internship) May 2026 – July-2026

- Developed and maintained a admin panel for a microservices-based iOS application using **Next.js**, **NestJS**, and **PostgreSQL**, deployed on **AWS**.
- Built and integrated a customer support system within the admin panel, And manage everything from the pannel.

Projects

Customer Support - Ai-Agent | LangGraph, RAG, NextJs, PostgreSQL, NestJS, Qdrant, Redis [Github](#) / [Live](#)

- Designed and developed a **multi-agent AI** platform for automated customer support ticket resolution using **RAG**, LLMs, and semantic vector retrieval.
- LangGraph** orchestration pipeline coordinating Ticket Analysis, Context Retrieval, Reasoning, Tool Executor, Response Writer, Reviewer, and Fallback agents with intent-based routing.

T&P-IIIT-SURAT - Mobile Application | Next.Js, Firebase, Tailwind, TypeScript, Capacitor

- Developed a cross-platform T&P mobile application for **IIIT Surat**, enabling students to discover placement drives, apply for jobs, track applications, and register for placement events.
- real-time push notification system delivering personalized alerts for new placement drives, application status updates, Job Registration, and upcoming T&P events.

Notes Management System | React.Js, Node.js, Express.js, MongoDB

[Github](#) / [Live](#)

- Full-Stack & **RBAC**: Built a **MERN**-stack academic platform with **JWT** authentication, institution email-domain verification, and role-based access control for students, teachers, and admins.
- AI-Powered Summarization: Integrated an AI-powered document summarization workflow to extract key concepts and generate concise, structured summaries from academic notes and PDFs.

Position of Responsibility

Developer — TNP Tech Team - IIIT-SURAT

March 2026 -Present

- Maintained and enhanced the placement portal used by 500+ students and placement coordinators
- Diagnosed and resolved bugs, enhancing application stability and user experience
- Supported portal operations and feature updates, helping ensure smooth placement processes across the institute

Technical Skills

Languages: C, C++, Python, JavaScript, TypeScript, HTML, CSS.

AI/LLM: LangGraph, RAG, Multi-Agent System.

Technologies : React.js, Bootstrap, Redux, Tailwindcss, NextJs, Node.js, Express.js, REST APIs, Redis, Embedding

Tools: Git, GitHub, VS Code, Postman(API Test)

Cloud/Databases: MongoDb(Atlas), MySQL, PostgreSQL, AWS(basics), Qdrant

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object-Oriented Programming, DBMS, SWE

Achievements

- Secured place in **Top 15** out of 50 teams in **GDG IIIT Surat's DevHeat Beta** hackathon.
